

Aromatherapists and Registered Nurse Massage Therapist

Aromatherapists

Each of our Nursing Homes has a dedicated Aromatherapist who runs the resident aromatherapy program and relaxation sessions. Regular education in both aromatherapy and meditation/relaxation are offered. All applicants must have a minimum of Certificate IV in Aromatherapy and be registered with a health association and enjoy working with the elderly.

Registered Nurse Massage Therapist

Many of our Nursing Homes have a dedicated Registered Nurse, massaging residents for pain. This is an in-depth program, where residents receive weekly massages for pain. A Certificate IV in any domain of massage is preferred, however is not essential, as long as you have a genuine interest in massaging the elderly.
