

Music/Art

Hospital Art

Hospital Art provides therapeutic, recreational and occupational opportunities to the residents who love painting. Everyone enjoys displaying their work.

This project includes the frames and canvas, Volunteer artists compose the outline designs which are then colour-coded and delivered to us. Residents complete the painting, the canvases are returned to Hospital Art Australia for final outlining, and then they are returned to us for display.

Mona Vale House Residents love painting and we have set up a table especially for painting, so residents are free to paint whenever they choose. We have even seen a very keen resident painting before breakfast.
