WORK EXPERIENCE

Student Placements

10 Weeks of Clinical Placement (400hrs)

During my placement as a EEN student, I engaged in diverse responsibilities across various healthcare settings. In the aged care facility, I assisted residents with their daily activities, feeding / meal assistance and ensure their comfort and safety. In the medical assessment unit, I participated in patient assessments, vital sign monitoring, and collaborated with the healthcare team to deliver comprehensive care. In preoperative and postoperative care, I support patients in preparing for surgery, provide emotional support, and assist with wound care and medication administration post-surgery. In theatres, I assist the surgical team by preparing equipment and ensuring a sterile environment, while in admissions, I help with paperwork, patient transfers, and provide initial care to incoming patients. Throughout my placement, I strive to learn and contribute to the holistic care of patients under the guidance of experienced nursing professionals.

ACE 1 - IRT MacArthur

October 2023-Present

As an aged care employee, my responsibilities encompass providing compassionate and personalised care to elderly residents within the facility. This includes assisting with daily activities such as grooming, feeding, and lifestyle activities. I also prioritise their emotional well-being by engaging in meaningful conversations and recreational activities. Additionally, I monitor their health status, report any changes to the healthcare team, and ensure a safe and comfortable environment for all residents.
