

GURWINDER KAUR

394 Glenrock Parade, Tascott, NSW 2250

M: 0470 271 614

E: Rahmatbrar13@gmail.com

As a second year Bachelor of Nursing at University of Technology Sydney, I am thrilled to bring my expertise to your organization as a personal care assistant, where I can create a difference in patients' lives, their families and the larger community. Through my extensive placement allocations at various hospitals and employment experiences, I have gained valuable skills and passion towards promoting patient-centered care and have developed motivation to accomplish my vision of fostering multidisciplinary collaboration. I am enthusiastic to work, learn and grow as a personal care assistant, in a fast-paced and supportive environment.

EDUCATION

Bachelor of Nursing

University of Technology Sydney

February 2024-December 2026

CLINICAL PLACEMENTS

Royal Prince Alfred Hospital

Memory Support Unit | 80 hours
Rehabilitation services

January 2025

A leading healthcare facility with a dedicated dementia unit that aims to provide quality care and support to patients through their journey through life by attending to their individualized needs with compassion, dignity, and specialized expertise.

- Provided person-centred care to dementia patients, assisting with daily living activities while promoting dignity and independence.
- Collaborated with nurses in monitoring vitals, administering medications, and documenting patient observations accurately.
- Communicated effectively with patients and teams, contributing to care plans and promptly reporting behavioural or clinical changes.

EMPLOYMENT EXPERIENCE

Personal Care Assistant

Meditech Staffing | St. Leonards

January 2025 - Ongoing

An extensive nursing care agency providing qualified staff to various aged cares and hospitals across Sydney with an aim to provide highest level of support to healthcare settings and ensuring quality patient care.

- Developed therapeutic relationships with residents, families and staff across various

- cultures, gained an opportunity to increase insight into various cultures and traditions.
- Established my passion to provide quality care to patients regardless of their backgrounds and gained valuable skills to adjust into fast-paced environments and ability to learn skills quickly.
 - Working with patients with different health conditions, provided me an insight into their individualised needs and advanced my knowledge about their well-being.
