## PROFESSIONAL SUMMARY

A position as a Registered Nurse in a Health Care facility where I can make the most of my nursing education and training, in addition to interpersonal skills to provide the highest level of patient care and create opportunities to expand practical skills and knowledge.

## WORK HISTORY

**Assistant in Nursing (Casual), 11/2022 to Current**  
**Sublime Nurses** - Westmead Hospital

- Assisted in the delivery of patient care in acute care environment.
- Maintaining accurate and timely clinical documentation of all patients including progress notes and clinical records in accordance with the care plan and organisational protocols.
- Working according to departmental safe working methods and complying with work health and safety policies and procedures.
- Identifying risks/hazards, assess the likelihood of the risks and preventing the occurrence of risks; for instance, falls, pressure injuries, etc.
- Skilled at working independently and collaboratively in a team environment.
- Self-motivated, with a strong sense of personal responsibility.
- Proven ability to learn quickly and adapt to new situations.
- Worked well in a team setting, providing support and guidance.
- Ensuring the delivery of optimum standards of nursing care that meet patient needs and expectations.
- Assistance with primary wound care

**COVID-19 Tester, 10/2020 to 09/2021**

**Mediserve Nursing Agency** - Lidcombe, NSW

- Handled and stored potentially contaminated nasal and oral samples to prevent compromise.

- Fully compliant with COVID-19 based work, health and safety protocols.
- Maintained safe and sanitary environment by conducting regular disinfecting and cleaning measures.
- Donned and removed personal protective equipment (PPE) per company protocols.
- Educated staff and visitors on importance of proper hygiene and social distancing to practice protective measures and avoid infection transmission.
- Conducted contact tracing of staff and visitors in close contact with individuals testing positive for COVID-19 to check for possible symptoms and prepare for treatments.
- Reported positive and negative response cases according to established protocols and reporting mandates
