To Whom It May Concern,

Re: Tae Hyun Kyung (Lio) Reference

This letter is to provide a reference for Tae Hyun Kyung (Lio). Lio has worked for our company for a period of six months at our Port Hedland Operations. Lio has worked in many capacities across our Catering and Accommodation Departments. I have found Lio to be one of the hardest working individuals I have ever had working for me. He has an amazing attitude and shows up to work every day with a huge smile on his face and it never disappears throughout the day right up until he finishes. He will complete any task asked of him, to the highest standards, no questions asked and be happy for the work. The only reason Lio is finishing up with us is because of Visa restrictions, otherwise I would keep him here forever if I could. I cannot recommend him highly enough to your organization in whatever role he is given.

If you have any further queries then please feel free to contact me at anytime.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'DPianto'.

Leo(TAEHYUN KYUNG)

To the Recruitment Team,

I am thrilled to express my genuine interest in the Care Worker Position at Thompson Health Care. With a strong background in aged care and an unwavering passion for supporting the elderly, I am confident in my ability to deliver compassionate, high-quality care to your residents.

My journey in aged care began with a transformative 120-hour student placement at Infinite Care. This experience ignited my passion for providing attentive and heartfelt support to those in need, which has only grown stronger with each role I've taken on since.

During my time as a Home Care Worker at Bolton Clarke, I had the privilege of assisting clients with a variety of daily tasks, from managing household chores to accompanying them on errands. These experiences deepened my appreciation for the unique stories and life experiences of the individuals I cared for, teaching me the profound impact that even small gestures can have.

At Opal HealthCare, my role as an Assistant in Nursing allowed me to take on more responsibilities, such as conducting health assessments and creating care plans. These tasks honed my clinical skills and reinforced my dedication to ensuring the wellbeing and dignity of every resident.

At Wongaburra, I continued to grow as a caregiver, gaining hands-on experience in managing the complex needs of elderly residents. My commitment to empathy, effective communication, and patient-centered care has been the cornerstone of my approach in every role I've undertaken.

At Oxa Care, I worked as a Mediator, further expanding my skills in administering medication and managing residents' health needs. This role strengthened my ability to provide comprehensive and responsible care, ensuring the safety and well-being of those in my charge.

The recent passing of my grandmother has profoundly impacted my understanding of the vital role that caregivers play in the lives of those they care for. This personal loss has reinforced my dedication to providing not just physical care, but also emotional support and companionship. It has given me a deeper appreciation for the compassion and presence that caregivers bring, and it motivates me to offer the best care possible to residents at Thompson Health Care.

I am currently seeking full-time employment and am eager to contribute to a team like Thompson Health Care's where I can continue to grow professionally and make a positive impact.

In addition to my professional qualifications, I bring with me a warm and caring nature. Life, I believe, is filled with moments of joy and laughter, and it is my mission to spread that happiness to the residents I care for. I applied to Thompson Health Care: because I want to share this joy, creating a positive and supportive environment where both residents and staff can thrive together.

Thank you for considering my application. I am eager to bring my skills, dedication, and positive spirit to Thompson Health Care, and I look forward to the possibility of contributing to your team.

With warmth and gratitude,

TAEHYUN KYUNG (Leo)
