### PROFILE

Dedicated and empathetic healthcare professional with over 15 years of experience in nursing and midwifery, care services. Proven ability to provide personal and emotional support, assist with daily living activities, and ensure the well-being of clients. Seeking a carer position in Australia, bringing a strong work ethic, cultural sensitivity, and a commitment to enhancing the quality of life for the elderly.

### WORK EXPERIENCE

#### Midwife

**Sally Mugabe Maternity Hospital – Harare, Zimbabwe** 2019 - Present

- Delivered direct care to mothers and newborns, including hygiene support and emotional reassurance.
- Assisted with labour, birth, and postnatal recovery, promoting maternal well-being.
- Provided breastfeeding guidance, infant handling, and family education.
- Ensured infection control protocols were strictly followed in maternity wards.
- Monitored vital signs and supported mothers with mobility and physical recovery.

#### Registered Nurse

**Sally Mugabe Maternity Hospital – Harare, Zimbabwe** 2010 - 2019

- Assisted patients with daily activities, including bathing, toileting, feeding, and repositioning.
- Monitored and recorded patient conditions and vital signs regularly.
- Supported elderly and long-term patients with personal care in general medical wards.
- Collaborated with other nurses and physicians to ensure coordinated care plans.
- Provided emotional comfort and education to patients and their families.
- Maintained clean, safe, and supportive environments for patient recovery.

### ARCHIEVEMENTS

- Implemented patient care strategies that improved recovery times and patient satisfaction.
- Recognized for exceptional patient rapport and dedication to compassionate care.
- Contributed to a significant reduction in patient complications through diligent monitoring and early intervention.
