Phone: 0410 933 242 • Email: kesonema@hotmail.com

Having been employed as an aged care worker for several years, I am seeking career progression. I will be remaining within the aged care and nursing industry, and wish to transfer to a nursing home for career development as my current careers involve personal care within the clients' homes, but if the opportunity arises, I wish to take on the role of a mental health first aider and/or a mental health support worker. I am always open to unfamiliar experiences as I am willing to learn and often find them enjoyable.
