Subject: Application for Nursing Support Worker Position

Dear Hiring Manager,

I am writing to express my interest in the Nursing Support Worker position. As a qualified and experienced nurse with a Bachelor of Science in Nursing and over a year of experience in intensive care, I am passionate about providing compassionate patient care and ensuring the highest standards of medical support.

During my tenure at Rajagiri Hospital in India, I have gained expertise in patient support, emergency response, and critical care management. I have experience administering medications, assisting in medical procedures, and utilizing advanced hospital equipment to ensure optimal patient outcomes. My ability to work collaboratively with healthcare professionals and my strong communication skills make me a great fit for this role.

I have successfully completed my Occupational English Test (OET) and have obtained my skills assessment approval for migration to Australia from the Australian Nursing & Midwifery Accreditation Council (ANMAC). I am eager to bring my skills and dedication to your esteemed facility and contribute to delivering excellent patient care.

I welcome the opportunity to discuss how my skills and experience align with this role. Thank you for your time and consideration. I look forward to your response.

Best regards,
Sanjal Antony

STATEMENT OF RESULTS

CANDIDATE DETAILS:

First Name	SANJAL ANTONY
Middle Names	
Last Name	-
Candidate Number	200339905
Date of Birth	20 Oct 1999
Nationality	Indian
Gender	Female

TEST DETAILS:

Venue Name	Ebek Cochin
Venue Number	IN020
Venue Country	India
Test date	24 Feb 2024
Profession	Nursing

TEST RESULTS

	Listening	Reading	Speaking	Writing
	300	280	410	320

OET letter grade	OET score	OET band descriptors
A	500 490 480 470 460 450	Can communicate very fluently and effectively with patients and health professionals using appropriate register, tone and lexis. Shows complete understanding of any kind of written or spoken language.
B	440 430 420 410 400 390 380 370 360 350	Can communicate effectively with patients and health professionals using appropriate register, tone and lexis, with only occasional inaccuracies and hesitations. Shows good understanding in a range of clinical contexts.
C+	340 330 320 310 300	Can maintain the interaction in a relevant healthcare environment despite occasional errors and lapses, and follow standard spoken language normally encountered in their field of specialisation.
C	290 280 270 260 250 240 230 220 210 200	
D	190 180 170 160 150 140 130 120 110 100	Can maintain some interaction and understand straightforward factual information in their field of specialisation, but may ask for clarification. Frequent errors, inaccuracies and mis-or overuse of technical language can cause strain in communication.
E	90 80 70 60 50 40 30 20 10 0	Can manage simple interaction on familiar topics and understand the main point in short, simple messages, provided they can ask for clarification. High density of errors and mis- or overuse of technical language can cause significant strain and breakdowns in communication.
