Career Objectives: I am a proficient and dedicated graduate who just have completed bachelor of nursing including 830 hours of clinical placements in different hospital settings. I am eager to excel in clinical experiences and skills in managing patient treatment in a healthcare setting. I have a strong analytical and problem-solving ability. Also, due to my calm disposition, therapeutic- communication, and integrity, I can build affinity and link with my patients and coworkers. Except for all the clinical placements in different major metropolitan hospitals, I have four years of work experience as an AIN in a renowned aged care facility. Also, I have two years of experience as a disability support worker in a renowned community care agency.

Education:

Bachelor of Nursing	University of Technology Sydney	March 2020- December 2024
---------------------	---------------------------------	---------------------------

Relevant Employment:

Disability Support Carer: Took care of Clients'- Medication administrations, ADLs, Urinary care, and bowel care, and Peg feed care	HCA (Healthcare Australia)	August 2021- Present
Assisting in Nursing Aided clients with their mobility, and communication needs, took clients' vital observations, and recorded them in real time. Also, reported changes in clients' conditions if required. Always maintained accurate and detailed care- records.	Frank Whiddon	August 2016- November 2020

Clinical Rotations:

Respiratory Student Nurse Took care of at least three patients' care needs including medication administration, and complied with related documentation including patients' progress notes, fluid balance charts, and other clinical procedures within the scope of practice under the supervision of a Registered Nurse.	Liverpool Hospital	21/10/2024- 15/11/2024
