SUMMARY

A compassionate and highly skilled former Registered Nurse with four years of experience working in an acute care hospital in Japan. Possesses extensive medical knowledge and a strong ability to provide high-quality care in fast-paced environments. Well-versed in multitasking, patient communication, building trust-based relationships, and effective teamwork. Graduated from an Assistant in Nursing training school in Australia, where I also studied medical English and the Australian healthcare system. Dedicated to delivering the best possible care through close collaboration with multidisciplinary teams.

EMPLOYMENT

April 2019- May 2023 / Registered Nurse

Tokyo Medical Center,National Hospital Organization /Tokyo Japan

- Worked as a Registered Nurse in a 680-bed acute care hospital for 4 years, gaining experience in Neurosurgery, Neurology, and Otolaryngology departments.
- Held a leadership role in the ward, overseeing staff development, managing workload, coordinating discharge planning, and providing patient support.
- Provided training and mentorship to new graduate nurses for approximately 1 year, ensuring effective integration into the clinical setting.
- Played an active role in caring for elderly patients, focusing on chronic disease management, medication administration, and preventive care for delirium and dementia.
- Delivered end-of-life care and supported families through the palliative process.
- Focused on comprehensive patient care, collaborating with multidisciplinary teams to ensure optimal outcomes.
- Contributed to the hospital's Ethics Committee, discussing clinical dilemmas and promoting effective communication among healthcare professionals using real-life examples.
