---

Dear Hiring Manager,

I am writing to express my strong interest in the Assistant in Nursing position at your aged care facility. With over four years of combined experience in both Korea and Australia, I bring a solid foundation in patient-centred care and a passion for supporting the elderly in a compassionate and respectful manner.

Currently, I work part-time at Macquarie Lodge Aged Care Centre, operated by The Salvation Army. My responsibilities include providing care across dementia units, high care, and general aged care wings. This diverse experience has allowed me to adapt quickly, handle complex care needs, and collaborate effectively with multidisciplinary teams.

Prior to this, I worked as a Registered Nurse in Korea, where I gained valuable experience in surgical and geriatric wards. These roles developed my clinical judgment, leadership, and cultural sensitivity, which I now apply in the Australian aged care context.

I am now seeking a long-term opportunity where I can contribute meaningfully to resident wellbeing and grow within a supportive team. I am also keen to discuss sponsorship opportunities, as I am committed to building a long-term career within your facility.

Thank you for considering my application. I would welcome the opportunity to discuss how I can contribute to your team and provide high-quality care to your residents.

Yours sincerely,

Woosuk Hwang
